Ahmedabad | 8849761253 | vishwadavda2004@gmail.com | LinkedIn: <https://www.linkedin.com/in/vishwa-davda-67b28432b/>

Professional Summary: Android Developer specializing in Kotlin, XML, and modern Android architecture components, with hands-on experience building scalable, secure, and high-performance mobile applications. Proven ability to implement MVVM architecture, integrate APIs, manage Room databases, and deliver production-ready features. Strong in debugging, performance optimization, UI/UX implementation, and collaborating with cross-functional teams.

TECHNICAL SKILLS

- **Programming & Frameworks:** Kotlin, Android SDK, Android Studio, XML, Material Design
- **App Architecture & Components:** Activities, Fragments, Intents, Activity & Fragment Lifecycle, MVVM (Basic), ConstraintLayout, Modular UI Design
- **Networking & API Integration:** REST API Integration, Retrofit, JSON Parsing, API Response Handling
- **Tools & Platforms:** Room Database, SharedPreferences, Firebase (Authentication & Realtime Database – Basic)
- **UI & Performance:** RecyclerView, Adapters, Material Components, Responsive UI Design, Performance Optimization
- **Tools & Platforms:** Git, GitHub (Basic), Android Emulator, Debugging & Testing Tools

PROFESSIONAL EXPERIENCE

Andriod Developer TeroTAM Technolabs (Full-Time)	July 2025 – Feb 2026
• Developed real-time Android applications using Kotlin and Android Studio, delivering production-ready features. • Designed clean, responsive user interfaces using XML layouts and Material Design components. • Implemented Face Detection functionality through camera integration and ML-based detection APIs. • Integrated Material Date Picker and custom Month Picker Dialog for seamless date-based inputs. • Implemented pagination to efficiently handle large datasets and enhance application performance. • Built dynamic lists using RecyclerView, Adapter, and ViewHolder pattern. • Integrated RESTful APIs using Retrofit and Volley for efficient network communication. • Handled JSON parsing, API responses, and error handling to ensure smooth user experience. • Managed Activity & Fragment lifecycle and implemented smooth navigation between screens. • Utilized SharedPreferences for secure local storage of session and app data. • Identified and resolved crashes, fixed bugs, and improved overall app stability and performance.	

EDUCATION

Master of Computer Applications (MCA) – Final Year (Pursuing) | JG University, Ahmedabad

Bachelor of Computer Applications (BCA) | CGPA: 8.0/ 10 | Lockmanya Collage of Computer Application, Gujarat University

SOFT SKILLS & ABILITIES

- Detail-oriented developer focused on writing clean, optimized code with consistent quality and performance improvements.
- Fast learner who rapidly adapts to new technologies and contributes value early in development cycles.
- Strong communicator skilled at simplifying complex technical concepts and collaborating effectively across teams.
