

PHASE ONE: WHY JOIN?

Join now!

(1) When selected, the link leads to a page with a brief explanation of the platform's usefulness for both consumers/the public and business owners.

(2) On this page there is a button "**Join now!**" When this link is selected, it leads to a page where there are two options namely:

2.1 **Join Now!** (For individuals/the public) and

2.2 **Join Now!** (For Business).

(3) When **Join Now!** (For individuals/the public) is selected it leads to the following page, completion of this page creates the customer's profile on the data base:

Input: Register a new user: Fields to be completed:

- * Create with Facebook Login (trusted to be up to date?)?
- * First name.
- * Surname.
- * Email address.
- * Password.
- * Date of birth.
- * Month of birth.
- * City/town of residence; if city then also:
Suburb.
- * May select multiple locations.
- * Help function.
- * Select interests from options on Business Directory.
- * When successfully registered, the system sends a "Welcome Message" with the following text:

Return to the Homepage, display the menu options on the navigation bar.

(4) When **Join Now!** (For Business) is selected it leads to the following page. The information when completed is sent to info@jimmygo.com in order that the advertiser's account may be activated, an invoice sent and the rest of the administrative tasks related to the new subscription may be completed. A copy of the completed page is also sent to the sales representative's email address as proof of the transaction. This page forms the basis for the creation of the Mini Site for each advertiser:

Input: Register a new advertiser: Fields to be completed:

- * Company name.
- * Preferred language to use during correspondence.
- * Business directory: Category(s) to be listed selected from options (Allow for multiple

listings).

- * Detailed description of business.
- * Upload images: First the logo/banner, as well as up to eight images. System to resize/adjust images to the optimal size/dimensions for display.
- * Contact information: Street address; Post Office Box; Postal code; Telephone/fax/mobile phone numbers; GPS co-ordinates; Website; Email address(es); Skype address; Link to map on website; Contact person; VAT registration;
- * Password for access to Mini Site.
- * Office hours.
- * Video of company and it's products/services.
- * Link to Youtube channel.
- * Name of Jimmygo sales representative.
- * Email address of sales representative:
- * Notes & Comments: Leave space to add additional information.

Return to the Homepage, display the menu options on the navigation bar.

PHASE ONE: SEARCH

This is the “heart” of Jimmyg.com and is a very important page, IT MUST BE EXTREMELY USER-FRIENDLY WITHOUT ANY POSSIBILITY OF CREATING CONFUSION.

Use the word GO! to create a mental link to the brand name.

Complete “What” (The item, product or service which you are looking for, “Where” (In which city, town or suburb) and then click on “Go!” to complete your search.

What are you looking for? (For example pizza or guest house) complete here

Where (The city, suburb or town, for example Centurion or Mossel Bay) complete here

*.....
..product or service?*

Now click on **GO!** to complete your search: **GO!**

The search results are then displayed as follows:

We have found the following PIZZA promotions in CENTURION:

- (1) Nemo’s Restaurant eat one get one free **Click GO! to view**
- (2) Peters Pizzeria Happy Tuesday half price **Click GO! to view**

When **GO!** is selected the advertisement displays.

It must be possible to navigate between viewing the various promotions.

It will be most helpful if it would be possible to contact the advertiser directly from the displayed promotion by email or telephone by pressing a “Contact the supplier” button

Main menu displays, including Homepage.

PHASE ONE: LOGIN

(Including all the pages which are accessed via the Login function)

Background:

There are three different types of users of the platform. All can access the platform via the same access point. These users are:

(A) *The public*, in other words consumers who visit the website to for example be informed of the latest promotions, search for a certain promotion, or contact an advertiser. The public has access to only their (own) personal details and have limited functionality.

(B) *The business owner* who advertises his/her products or services on the platform. The business owner has access to only the mini site of the (specific) business, and has full functionality for this mini site only.

(C) *The Jimmygo management/Admin users*. The Jimmygo management personnel have access to the whole platform and can allocate access to certain users, for example sales agents, who have access to certain mini sites or parts of the platform only.

Each menu and submenu is indexed in red for easy future reference, for example "A1" refers to the submenu of "The Public" – "Update my profile".

Login process:

Enter email address & password

Or

Login with Facebook account

When the email address is rejected, the system must instruct "You must be registered to access this function. Select **Join now** to register" When **Join now** is selected, the visitor is routed to the "Join now" page.

When the email address is accepted but the password is rejected: The system must instruct "Have you forgotten your password? Click **here** to receive a new password which will be sent to your Inbox". When **here** is selected, the system sends a new password to the email address concerned.

A: The public:

On successful login the person is routed to the following menu with the option:

* Update my profile (A1).

* View My Promotions

* View My Favorites

* View My Contacts

* View My Profile and Settings

* View My Events

B: Business owners/advertisers:

On successful completion of the login process the person is routed to a menu with the following options:

- * Update company profile & login details (B1).
- * Add a customer (B2).
- * Add a customer(s) from email address book (B3).
- * Upload and distribute a new promotion (B4).
- * View past promotions (B5).
- * View data base according to certain filters (B6).

C: Jimmygo management/Admin users:

On successful completion of the login process the person is routed to a menu with the following options:

- * Add new Admin user: (C1).
- * View, update & delete Admin user: (C2).
- * Create mini site: (C3).
- * Create Overview of mini sites according to certain filters: (C4).
- * List, update & delete free mini site: (C5).
- * List, update & delete paid mini site: (C6).
- * View data base according to certain filters: (C7).
- * Contact data base of registered users according to certain variables: (C8).
- * Contact data base of advertisers according to certain variables: (C9).
- * View, update and edit deleted Mini Sites (C10).

DETAIL DESCRIPTION OF THE PAGES WHICH ARE ACCESSED BY THE PUBLIC AFTER LOGIN:**(1) Update my profile (A1).**

- This page was created via the **Why Join? Join now!** Pages.
- When selected, the following data fields will appear, populated with the data already submitted. The visitor can now edit and update the data fields and save the updates.

Input: Register a new user:

- * Create with Facebook Login (trusted to be up to date?)?
- * First name.
- * Surname.
- * Email address.
- * Password.
- * Date of birth.
- * Month of birth.
- * City/town of residence; if city then also:

Suburb.

- * May select multiple locations.
- * Help function.
- * Select interests from options on Business Directory.
- * After the updates were made, the system sends a “Updates confirmed Message” with the following text: “Dear You have today made the following updates to your profile on www.jimmygo.com: Best regards, The Team at Jimmygo”.

DETAIL DESCRIPTION OF THE PAGES WHICH ARE ACCESSED BY BUSINESS OWNERS/ADVERTISERS AFTER LOGIN:

(1) Update company profile & login details: (B1).

- This page is the advertiser’s Mini Site and was created by the Jimmygo management after the advertiser’s particulars were submitted from the **Why Join? Join now!** Pages to the email address info@jimmygo.com
 - When selected, the following data fields will appear, populated with the data already submitted. The visitor can now edit and update the data fields and save the updates. **All data fields may be changed except the Company name which can be created and changed by Jimmygo Admin personnel only.**
- * Company name (Display only, Created and amended by Jimmygo Admin personnel only).
 - * Business directory: Category(s) to be listed selected from options (Allow for multiple listings).
 - * Password.
 - * Detailed description of business.
 - * Upload images: First the logo/banner, as well as up to eight images. System to resize/adjust images to the optimal size/dimensions for display.
 - * Contact information: Street address; Post Office Box; Postal code; Telephone/fax/mobile phone numbers; GPS co-ordinates; Website; Email address(es); Skype address; Link to map on website; Contact person; VAT registration;
 - * Office hours.
 - * Video of company and it’s products/services.
 - * Link to Youtube channel.
 - * Help function.
 - * After the updates were made, the system sends a “Updates confirmed Message” with the following text: “Dear You have today made the following updates to your profile on www.jimmygo.com: Best regards, The Team at Jimmygo”.

Return to the Homepage, display the menu options on the navigation bar.

(2) **Add a customer:** (B2).

- This page allows the business to add customers to the company's own data base. The customers thus added are identified or tagged with a code to link them to the Particular business, making it possible for the business to communicate with them Only if needed.
- The customers added by the business are also placed on the Jimmygo data base and can be included in the communications which are initiated by other businesses.
- When selected, the following data fields will appear, which is the same document as used for the **Why Join? Join now!** Pages. **(This is the only function which is duplicated in the whole platform):**

Input: Add a new customer: Fields to be completed, *some of the data fields may be indicated as optional, can be amended to facilitate quick completion for example at a restaurant where time is of the essence:*

- * Create with Facebook Login (trusted to be up to date)?
- * First name.
- * Surname.
- * Email address.
- * Password.
- * Date of birth.
- * Month of birth.
- * City/town of residence; if city then also:
Suburb.
- * May select multiple locations.
- * Help function.
- * Select interests from options on Business Directory.
- * The user is tagged or linked with a code to the business, to enable the business to communicate with them directly if needed.
- * When successfully registered, the system sends a "Welcome Message" with the following text:

Return to the Mini Site Homepage, display the menu options on the navigation bar.

(3) **Add a customer(s) from email address book:** (B3).

- Many businesses have several contacts in their Email address book which they might be willing to integrate with their Jimmygo Mini Site.
- This page allows the business to add such customers to the company's own data base on Jimmygo.
- The customers thus added are identified or tagged with a code to link them to the Particular business, making it possible for the business to communicate with them Only if needed.
- The customers added by the business are also placed on the Jimmygo data base and can be included in the communications which are initiated by other businesses.

Input: Add customer(s) from Email Address book/List: Fields to be completed, *some of the data fields may be indicated as optional, can be amended to facilitate easy integration of the data:*

- * Create with Facebook Login (trusted to be up to date)?
- * First name.
- * Surname.
- * Email address.
- * Password.
- * Date of birth.
- * Month of birth.
- * City/town of residence; if city then also:
Suburb.
- * May select multiple locations.
- * Help function.
- * Select interests from options on Business Directory.
- * The user is tagged or linked with a code to the business, to enable the business to communicate with them directly if needed.
- * When successfully registered, the system sends a “Welcome Message” with the following text:

Return to the Mini Site Homepage, display the menu options on the navigation bar.

(4) Upload and distribute a new promotion: (B4).

- This page enables the business to upload the details of a new promotion or advertisement, and to send/distribute it by email notification directly to customers.
- This function must be very user-friendly and easy to understand and use, as it is crucial to the success of the Jimmygo platform.
- A tracking system is needed to monitor the interest in the promotion (Clicks/Views received).
- To facilitate user-friendliness the process of uploading the promotion could be broken down in several steps to be completed one at a time, and thereby reducing the apparent complexity of the process for example:

(First question) What is the title of the promotion? (For example “Pizza double delight”):

(Second question) On which date will it start? Year ... Month ... Day ...

(Third question) On which date will it end? Year ... Month ... Day ...
Use drop-down menus.

(Fourth question) Indicate the specific main and sub category from the Business Directory, (For example “Eat & Drink” and then “Restaurants”).

(Fifth question) Provide a detailed description to encourage customers

(For example “Buy one Large Pizza at R54,00 and get one Large pizza free, plus three toppings of your choice on each pizza!”).

(Sixth question) Upload an image (Compulsory):

- The data fields to be completed and actions to be executed are.

Input: promotions: Fields to be completed:

- * Title of promotion.
- * Start date of promotion.
- * End date of promotion.
- * Category(s) of product, obtained from the Business Directory.
- * A detailed description of the promotion.
- * Images of product(s) System to resize images for optimal display.
- * Video linked to promotion.
- * Link to Youtube channel.
- * Upload multiple documents (Word/PDF/JPEG and other formats) for use by e.g. supermarkets to upload a brochure.
- * Feed to Twitter, Facebook, Whatsnew, Mixit, ?
- * View the complete promotion and edit if needed (Here all the completed data fields display and can be edited)
- * Save the promotion.
- * Options to distribute the promotion: Immediately to end-users or
Place on Newsletter.
Geographical distribution: Specify filters to be Applied:
Own database only or
Own suppliers only or
Jimmygo shared database.
- * Promotion Active/Not.
- * Send.
- * Help function.

(5) View past promotions: (B5).

- Expired promotions/advertisements must be placed in an archive.
- The user must be able to edit these archived promotions and re-activate them as current promotions/advertisements.
- Archived promotions can display in one line, for example:
Date started Date ended Title

(6) View data base according to certain filters: (B6).

- The business owner should be able to request and view a summary of the people who have registered on the company's data base. This must include those registered via the Mini Site, as well as imported from the Email address book/Email contacts.
- The following could be useful:
 - * Total people on the data base.
 - * Total people per geographical criteria (Province, city, suburb, town)

DETAIL DESCRIPTION OF THE PAGES WHICH ARE ACCESSED BY JIMMYGO MANAGEMENT AFTER LOGIN:

(1) Add new Admin user: (C1).

- This function enables the Jimmygo Management to allocate certain users with the access to the contents of the whole website and to make changes to all data fields.
- It is suggested that the person concerned's email address and password are used as the two data fields to grant access to the whole website.
- The following data fields are required:
 - * Name.
 - * Surname.
 - * Email address.
 - * Password.
 - * Date when Admin access was granted
 - * A "tick box" to activate the record.

(2) View, update & delete Admin user: (C2).

- It must be possible to edit and also update the data fields to for example change an email address and password.
- An Admin user's access might be cancelled and the records deleted.
- The following data fields are required:
 - * View an alphabetical list of all the Admin users.
 - * A "tick box" to delete and cancel the Admin access.
 - * Date when the Admin access was cancelled.

(3) Create mini site: (C3).

- The input is received from the **Why Join? Join now!** Pages and is sent to info@jimmygo.com either by the advertiser directly or by a sales representative.
- On receipt of this page the Jimmygo office personnel create the advertiser's Mini Site.
- The Jimmygo Logo and the words "Powered by Jimmygo" must appear clearly on all pages of the Mini Site.
- The Mini Site must have an attractive layout and be user-friendly. It is the hub of all Jimmygo's activities.
- The following data fields must be completed:

Input: Register a new advertiser:

- * URL of the customer (For example a restaurant "Brian's Grill" receives the URL <http://briansgrill.jimmygo.com>). The system must create the URL and allocate it to the advertiser's Mini Site.
- * A duplicate URL must be identified and indicated as such.
- * Company name.

- * Indicate whether it is a “Free” or a “Paid” subscription.
- * Date when the subscription is to be activated.
- * Preferred language to use during correspondence.
- * Business directory: Category(s) to be listed selected from options (Allow for multiple listings).
- * Detailed description of business.
- * Upload images: First the logo/banner, as well as up to eight images. System to resize/adjust images to the optimal size/dimensions for display.
- * Contact information: Street address; Post Office Box; Postal code; Telephone/fax/mobile phone numbers; GPS co-ordinates; Website; Email address(es); Skype address; Link to map on website; Contact person; VAT registration;
- * Password, to be used for access to the Mini Site.
- * Select and allocate geographical distribution of promotions from options list (How do we control this function?). When "Admin" creates the advertiser/seller's Mini Site the area(s) where the notifications are to be distributed/sent to must be activated through the provision of "Tick boxes", for example:
 - + An advertiser who has a business in the suburb of "Camps Bay" in the "City of Cape Town Metro" in the "Western Cape Province" joins Jimmygo.
 - + This advertiser can send out notifications to all users in the data base of the "Atlantic Seaboard" region.
 - + There must be "Tick Boxes" to enable "Admin" to indicate the Province, regions etc. where the advertiser may send out notifications to. In this example, the “Tick Boxes” will be the following: “Western Cape Province” then “City of Cape Town Metro” then “Atlantic Seaboard” and all the suburbs as mentioned in the “Atlantic Seaboard”.
- * Office hours.
- * Video of company and it's products/services.
- * Link to Youtube channel.
- * Help function.
- * Enable Business to Business communications.
- * When successfully registered, the system sends a “Welcome Message” with the following text:

(4) **Create Overview of mini sites according to certain variables:** (C4).

- Create simple reports on the Mini Sites.
- The reports are displayed according to the application of criteria from the Business Directory and the Geographical Classification.
- Sample reports are:
 - * Total free Mini Sites for the country.
 - * Total paid Mini Sites for the country.
 - * Total free Mini Sites per Province, Metro, City, Suburb and town.
 - * Total paid Mini Sites per Province, Metro, City, Suburb and town.

(5) **List, update & delete free mini site:** (C5).

- Display the URLs of all the free Mini Sites in Alphabetical order.
- A “tick box” has an option to delete the Mini Site.
- Add the date when the Mini Site was deleted.
- Add the name of the Admin person who deleted the Mini Site.
- Place the deleted Mini Sites in an Archive of Deleted Mini Sites.

(6) **List, update & delete paid mini site:** (C6).

- Display the URLs of all the paid Mini Sites in Alphabetical order.
- A “tick box” has an option to delete the Mini Site.
- Add the date when the Mini Site was deleted.
- Add the name of the Admin person who deleted the Mini Site.
- Place the deleted Mini Sites in an Archive of Deleted Mini Sites.

(7) **View data base according to certain variables:** (C7).

- Create simple reports on the users/people who have registered on the data base.
- The reports are displayed according to the application of criteria from the Business Directory and the Geographical Classification.
- Sample reports are:

* Total registered users for the country.

* Total registered users per Province, Metro, City, Suburb and town.

(8) **Contact data base of registered users according to certain variables:** (C8).

- Compile and distribute an email message from info@jimmygo.com to either all of the users on the data base, or select recipients from the geographical classifications Province, Metro, City, Suburb, Town.

(9) **Contact data base of advertisers according to certain criteria:** (C9).

- Compile and distribute an email message from info@jimmygo.com to either all of the advertisers, or select recipients from the geographical classifications Province, Metro, City, Suburb, Town.

(10) **View, update and edit deleted Mini Sites:** (C10)

- View the deleted Mini Sites in Alphabetical order.
- A “Tick box” enables the Admin user to update, edit, or re-activate a deleted Mini Site.

41

PHASE ONE: DIRECTORY

When selected, the Business Directory is viewed:

Should we make these headings “active links” and route them to the “Search” Function and or the Geographical Classification, or just display them? We will of course initially lack data and will be unable to populate these data fields.

1) **Accommodation**: Backpacking, Bed & Breakfast, Camping & Caravanning, Guest farms, Guest Houses, Youth Hostels, Resorts, Safari Lodges, Self Catering, Timeshare, Hotels, Accommodation elsewhere.

2) **Art & Culture**: Arts & Crafts, Education, Exhibitions, Galleries, Literature & poetry, Performing Arts.

3) **Eat & Drink**: Bars & Pubs, Coffee Shops and Tea Rooms, Food Deliveries, Restaurants, Takeaways, Taverns and Shebeens.

4) **Entertainment and Leisure**: Festivals, Flea Markets, Live Entertainment, Game Parks & Nature Reserves, Night Clubs, Shows, Sport events, Sport Clubs, 4 X 4 routes, Venues.

5) **Health and Beauty**: Alternative Medicine, Alternative Treatment, Babies & toddlers, Beauty Treatment, Diet Clinics, Fitness, Hair and Nail Salons, Spas & Retreats, Nutrition.

6) **Motoring**: Accessories, Car dealerships, Caravan and trailer, Motorbike Dealerships, Panel beaters, Service and Repairs, Sound, Tractors & Farm implements, Tyre and exhaust, Used vehicles.

7) **Services**: Agriculture, Emergencies, Financial, Legal, Medical, Transport.

8) **Shopping**: Building & Hardware, Clothing, Décor & Interior, Electronics and Multimedia, Fresh Fruit and Vegetables, Garden and Outdoor, Liquor, Meat & Seafood, Sport & Hobbies.

9) **Travel**: Car Rental, **Flights**: Local, **Flights**: International, Taxi services, Bus passenger transport, Travel agencies, **Holiday Packages**: Local, Indian Ocean Islands, Africa, International.

PHASE ONE: LATEST PROMOTIONS

Displays a few of the latest promotions which have been uploaded on the system. This will help a new visitor to the Homepage to immediately understand what Jimmygo is about.

Once the person has joined and indicated personal preferences on the Business Directory and the Geographical Filters, this page can then display the promotions which are of interest to the individual.

6

PHASE ONE: DIGITAL MAP

I have no ideas at all regarding the design and presentation of a digital map and it's contents and rely on you to please elaborate on this topic.

We should try to integrate the map with our contents. I do not understand the processes which are involved with this functionality.

I suppose that the map should be able to help the customers to easily identify the whereabouts of interesting venues, and trust that they can do this with a GPS also?
