Introduction

Digital technology affects the lives of people the world over in many ways. ICT are a key factor not only at the macro level in the process of globalization but also at the micro level where the increased use of mobile phones, for instance, has changed communication patterns all over the world. Impressed by what is called the digital revolution, a wave of enthusiastic statements on the alleged effects of ICT on development and poverty reduction emerged. At the end of the 1990s and the beginning of the 21st century many debates at international, national and regional levels concluded that access to information through ICT would aid SD in alleviating poverty and allowing low-income countries to 'leapfrog' to the level of rich industrial countries.

Objectives

- ☑ The conference is anticipated to attract a large number of high quality submissions and stimulate the cutting-edge research discussions among many academic pioneering researchers, scientists, industrial engineers, students from all around the world and provide a forum to researcher.
- ☑ Propose new technologies, share their experiences and discuss future solutions for design infrastructure for ICT.
- ☑ Provide common platform for academic pioneering researchers, scientists, engineers and students to share their views and achievements.
- ☑ To promote ICT for Inclusive Growth through awarding bench mark Growth in ICT.
- ☑ Enrich technocrats and academicians by presenting their innovative and constructive ideas.

ICT AWARDS THE EXCELLENCIA

In order to alleviate and to promote Indian ICT industry, the Government of India had set up a National Task Force on ICT and Software Development to examine the feasibility of strengthening the industry along with providing major fiscal incentives. India aims to transform India into a truly developed and empowered society by 2020. However, to achieve this growth, the sector has to continue to re-invent itself and strive for that extra mile, through new business models, global delivery, partnerships and transformation. A collaborative effort from all stakeholders will be needed to ensure future growth of India's ICT sector. In order to recognize and reward the extraordinary performance as well achievements by ICT and allied industries in India, ICT Awards The Excellencia 2015 concurrent with ICT4SD conference during 3 & 4 July 2015 will be held at The Pride Hotel, Ahmedabad, Gujarat. We invite award nomination from all over the India for consideration.
